THE REV. DR. HAWKS. - This of whose sympathy with the South led him to dissolve his connection with his parish in this city and go to Baltimore, is, according to report, now in New-York, to avoid giving an account of his stewardship to the military authorities of Baltimore. His congenial congrega-

RECRUITING IN THE CITY .- Since the order for the draft, recruiting has made slow progress in this city and neighborhood. Had that order been withheld a few days, it is supposed by competent judges that the quota would have been completed by this time. More than one thousand recruits are needed from this city and county, to satisfy the demand made by the Provest Marshal. Supervisor Blunt still offers the county bounty of three hundred dollars to each recruit for the army or marine service. Those who desire to relieve New-York from the necessity of a draft should at once exert the utmost of their endeavors to encourage enlistments, and those who wish to share in the honor and glory of putting down the Rebellion and saving the Union, should hasten to headquarters and enroll their

THE DRIVERS' STRIKE .- On Monday night no cars were running after 9 o'clock, on the Seventh, Eighth and Ninth avenues. Yesterday no regular trips were made on the Sixth or Eighth avenue rouds Superintendent Kennedy has issued an order directing that no driver of a city car shall be arrested by the police on the ground that he (the driver) has no license. unless a warrant shall have been first issued, and even in that case the driver shall be permitted to make his trip back to the depot. This step is taken by the Superintendent because the traveling public would be put to great inconvenience if detentions of this sort were constantly allowed to be made by the strikers.

PAYING OFF THE STREET-SWEEPERS .- For the past four days, the intervening hours between 2 and 11 o'clock p. m. have been occupied by Controller Brennan and his assistants in paying off the street-sweepers, the men from a specified number of wards calling for their money on certain days. Yesterday the work was det which, if left exposed to legal voxation by their creditors, they can never hope to discharge contents, she are never hope to discharge and had described and the property effectively useful but for this liability; though we heartly resolve of Mr. Wilson of Iowa, whereby all the Railroads existing throughout the country are equively sympathise with many of these, and with their freight between the States on either hand-in forcight hand in the Northern thine of the States on the hand the work of the Board between the first hand the work of the Board in the distribut nearly completed.
